# Discover what's NEW in Aspose.Pdf for .NET 10.7 and Aspose.Pdf for Java 10.6

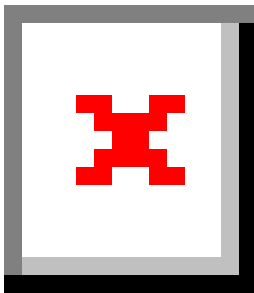

Aspose.Pdf for .NET and Java are powerful APIs that let you easily create, convert and manipulate Adobe PDF, LaTeX, XPS and more in your applications. Regular updates mean there are always new and powerful features to make your life easier. Stop struggling with PDF file creation and let Aspose APIs make your work easier.

[Download a Free Trial](#)

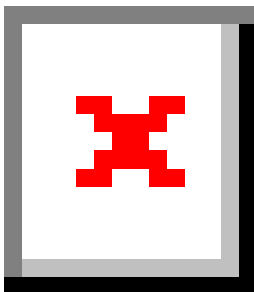

What's New

### **advantage of improved HTML import/export and support for and Footnotes in Aspose.Pdf for .NET 10.7**

Aspose.Pdf for .NET now includes many new features and fixes with the release. New features and enhancements include:

- Many useful upgrades to HTML support now allow local links to be preserved when converting from PDF to HTML and you are now able to import HTML content into an existing PDF document in a single step.
- Tab stops and PDF Footnotes are now fully supported in any PDF document.
- A new utility function allows you to determine programmatically whether a document is in PDF/A format or not.

[Click here to learn more about Aspose.Pdf for .NET](#)

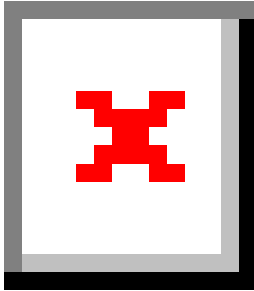

### **Charge your formulas with our fastest performance yet in Aspose.Cells 8.5.2**

Aspose.Cells is a class-leading library for working with Microsoft Excel and other spreadsheets. Our regular August release included significant updates to our Aspose.Cells for .NET and Aspose.Cells for Java with a focus on Formulas and Performance. New features and enhancements in 8.5.2 include:

- Significant improvements to Calculation performance let you process large spreadsheets with more complex formulas.
- Improvements to processing of XLSX files created by Microsoft Excel 2010.
- Support for previously unsupported functions introduced since Excel 2007.
- Enhancements to data validation, pivot tables support, shapes and charts and more.

### Aspose.Tasks vs. Visual Studio Tools for Office Sample Project

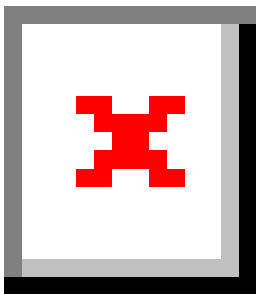

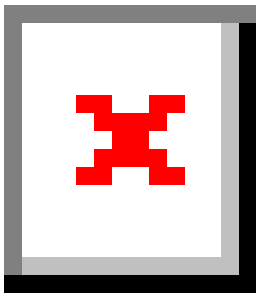

We are pleased to announce some added features in the latest release of our Aspose.Tasks for .NET. This project is a great starting point for both developers and new developers to see the many benefits Aspose.Tasks for .NET has over VSTO. This project is also a perfect guide to help you migrate clunky code to much more clean and flexible code enabled by Aspose.Tasks for .NET. [Read More...](#)

### Comparison of Aspose.Cells for Java Features and Xlsx4j Java API

The Aspose.Cells for Java for Docx4j project shows how different tasks can be performed using Aspose.Cells Java APIs in comparison with Docx4j and Xlsx4j. Open Source Java libraries like Xlsx4j covers in detail many Aspose.Cells features which are missing in Xlsx4j. This project is a number of new open source code examples comparing how different tasks are addressed so Java developers can quickly appreciate the benefits of switching to Aspose.Cells for Java. ## Discover the power of Aspose.Diagram in your applications

Aspose.Diagram for .NET and Java are native APIs that give you full control working with Microsoft Visio files.

It allows developers to work with all common Visio formats, it allows you to open files and manipulate the elements of the diagram, from lines and fills, to more complex elements, and then export to VDX, VSX, VTX, XPS, HTML, SVG, SWF, XAML, image or PDF formats.

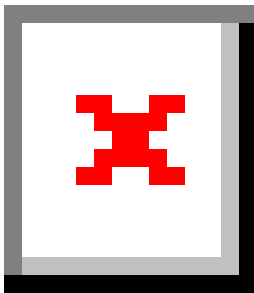

Let Aspose make your work easier.

Product News

## Support for 3D File Formats in the Upcoming Release of our new Family: Aspose.3D

We are nearing the release of the latest addition to our suite of file manipulation . Aspose.3D is a component that allows software developers to add support for 3D file formats to their ASP .NET web applications, web services and Windows applications. It provides a simple set of classes for programmatically loading, manipulating and saving 3D file formats. **Stay tuned for more news.**

## Integrating Aspose.Diagram vs VSTO Visio – Now with added flexibility

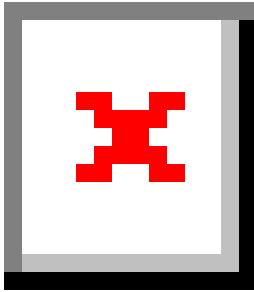

It is now easy and flexible Aspose.Diagram for .NET is to use by comparing the resolution required to complete common use cases. This handy tool can also be used to migrate data from VSTO to Aspose.Diagram. [Download for free now.](#)

## Introducing a New Plugin: Aspose.Slides Java for IntelliJ

We have just released a new Maven based plugin for the IntelliJ IDEA development environment. The plugin aims to facilitate the use of the Aspose.Slides for Java / Maven based java projects developed using IntelliJ IDEA. Use this plugin to generate presentations even faster. [Click to learn more.](#)

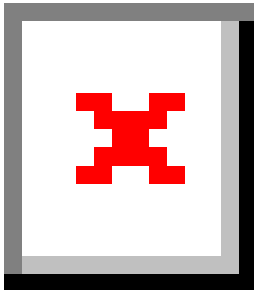

## Aspose.Email for Java, features missing in Apache POI-HSMF for Microsoft Outlook and Emails

Aspose just published the new release for Aspose.Email Java for Apache POI-HSMF. This new release highlights a number of features missing in Apache POI-HSMF for manipulating Microsoft Outlook and emails that can be accomplished using Aspose.Email for Java. [Check out the article and code examples to learn more.](#)

## Aspose.Express is a Windows App to Convert Word documents for free

is an XML-based distribution format for eBooks that is rapidly gaining adoption among authors and distributors. Aspose offer a free graphical tool Aspose.Words Express to convert your documents into EPUB format. [Download now](#) and enjoy your documents.

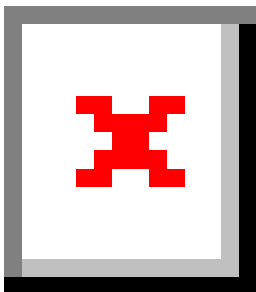

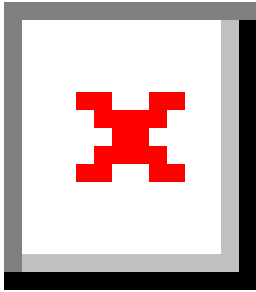

## Check out a Different way to Mail Merge in Aspose.Words

Aspose's native mail merge syntax allows you to create templates for mail merge documents using markers instead of merge fields commonly used in Microsoft Word documents. These markers look like this:

```
FieldName}}
```

You can enable mail merging into plain text fields by enabling a simple property in your template with other merge fields. This adds native mail merge syntax to templates that don't support Microsoft Word fields. [Check out the documentation](#)

## Product News

## Product Release: Introducing Aspose.Note for Java

We are pleased to announce the release of the newest member of the Aspose.Note family: Aspose.Note for Java. Aspose.Note for Java is a native Java library, built on the foundation of our existing .NET product, which enables Java developers to integrate Microsoft OneNote documents without the need to install Microsoft Office on the machine with any form of Office automation. [Read More](#).

## Conversion to other formats optimized in Aspose.Pdf for Java

The latest release of Aspose.Pdf for Java, 10.9.0, is focused on major improvements in speed and reliability of conversion to other file formats. Conversion of PDF files to TIFF, PNG, PDF/A and Excel have all been greatly improved and for HTML conversions more control is offered over which formatting is saved as CSS. [Read More](#).

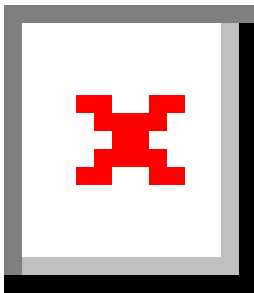

## Aspose.Email for Java 5.9.0 Supports Forwarding Emails and Retrieving Follow-Up Information from Messages

We are pleased to announce the release of Aspose.Email for Java 5.9.0. This major release includes a number of enhancements related to the API's communication clients, support for email forwarding and extracting follow-up information from messages, as well as stability and performance improvements. [Find out more](#).

## Convert 3D files, Place Geometric Shapes and Implement 3D Mesh Instancing Technique using Aspose.3D for .NET 1.0.0

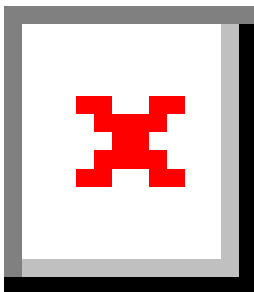

At the end of October we released the first member of our new product family for 3D file formats: Aspose.3D for .NET. With this new Aspose API .NET developers can now create, edit and manage file formats used in 3D modelling, Gameware, Computer graphics design and manufacturing starting with support for the popular FBX and STL formats. For the product launch our team have been busy preparing more samples and documentation which makes it easier than ever to get started with this powerful new product. [Learn More](#).

## Introducing the New and Improved Aspose.Tasks for Java

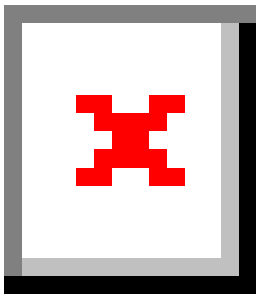

We are pleased to announce the launch of the newly revamped Aspose.Tasks for Java.

There are a number of improvements to the new API that enhances the overall product functionality. Improved usability and scalability means it's easier than ever to manipulate Microsoft Project documents in your application

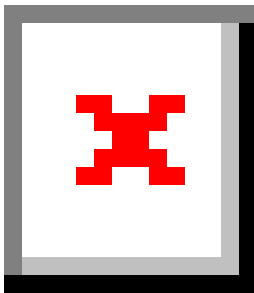

Product News

## Aspose.Tasks for Java Revamped and Improved API out now!

Following the successful launch of the redeveloped API for Aspose.Tasks for .NET, the improvements have been ported to Aspose.Tasks for Java. This new improved version includes useful improvements to the API to make it easier to use and with no missing features when compared to previous versions. It is no better time to check out Aspose.Tasks for Java. [Read about all the improvements now.](#)

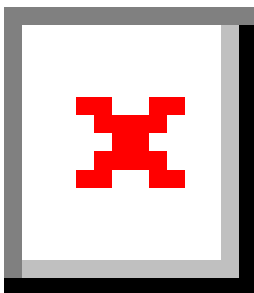

## Support for Setting Automatic Series Fill Color in Aspose.Slides

Aspose.Slides for Java now has a feature to automatically set the fill color of a chart series based on the presentation theme used. This is a welcome time saver compared to doing this manually for each series in the chart. Check out the documentation for [full details](#)

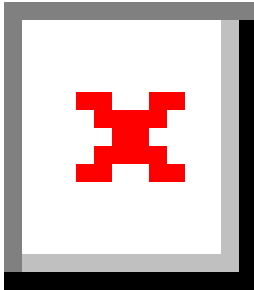

## Create Multi-Layered PDF documents and more using Aspose.Pdf

A layered PDF document opens up a world of possibilities, from including text in multiple languages to appeal to a wide set of audience, to including an overlay that must be accessed before the reader can access the main content. Aspose.Pdf for Java 10.0.0 adds this functionality and so much more. [Try it out now.](#)

## How to: Convert Email Files to WordPress Posts using Aspose.Email to Post Plugin

WordPress is the most popular blogging system used on the web today and now with the new REST APIs there is an easy way to import emails directly into the WordPress database. With a button any EML, MHT or MSG file is imported into WordPress without the need for Outlook or any other external program. [Check it out now.](#)

## ProHire Uses Aspose.Words for .NET to Convert Word Documents

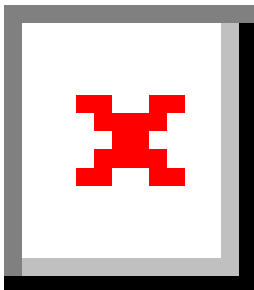

ProHire is the workforce solutions leader in the United States. One of their requirements was to convert MS Word Documents resumes into a clean and concise HTML format that integrates into their existing .NET Stack.

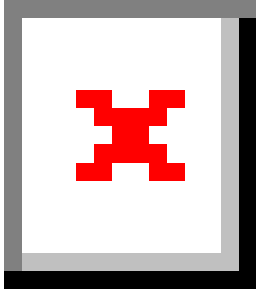

Aspose.Words solved this problem for ProHire by easily integrating into their existing .NET Stack and cleanly parsing Word Documents to HTML. Aspose.Words produced HTML with the highest fidelity when compared to other solutions. [Read the case study.](#)

## FileFixUtility.com on Working with Aspose.Email for .NET

The team at File Fix Utility needed an advanced tool to read, save and manipulate PST storage files (PST). That content is then converted to PDFs or thumbnails to give their Enterprise Content Management System a unified, device independent, user interface. They found that Aspose.Email for .NET offered the best performance and functionality of all the solutions they looked at. [Read the review.](#)
